

## **ICLOUD FOR IPHONE, IPOD, IPAD, MAC AND PC**

### **OBJECTIVES**

At the end of the course, the participant will be able to store their music, photos, documents and automatically transfer them to all Apple devices: iPhone, iPod, iPad, Mac and PC. During the session the various services offered by iCloud will be presented and the procedures to set up iCloud on your devices or migrate an account MobileMe to iCloud will be seen.
